

ÉTS' DELEGATION OF COMPUTER SCIENCE COMPETITIONS

PARTNERSHIP PLAN

2016

DELEGATION OF COMPUTER SCIENCE COMPETITIONS (*DCI*)

The *Delegation of computer science competitions (DCI* in French) bring together, each year, ÉTS' (École de technologie supérieure) best computer science students, to represent the university in regional, national and international grade events. We participate in computer science competitions, attend computer science conferences, and organize competitions within the university.

DELEGATION ACTIVITIES

Our delegation is present, year after year, to many competitions. This year, we wish to send a delegation to, at least, the following competitions: the Computer Science Games (*CS Games*), the *NorthSec*, the *CSAW* and the *HackFest*. We also intend to participate in other online computer security competitions.

Computer Science Games

<http://csgames.org/>

The *CS Games* is an annual event where more than thirty teams from the biggest North American universities face each other in competitions in various computer science and software engineering challenges. The *CS Games* can be summarized in the following statement:

- They consist in 14 challenges including database programming, debugging, artificial intelligence, embedded vision, extreme programming, software engineering, web development & design and embedded systems.
- They gather each year more than 300 students from various North American universities.

NorthSec

<http://www.nsec.io/>

NorthSec is a computer security competition organized by software and computer engineering students. This will be the third occurrence for this event which aims to improve system security awareness and comprehension for all participants, by organizing a “capture the flag” (CTF) competition. *NorthSec* provides networking opportunities between participants and industry professionals because it is open to everybody. Participants face each other in cryptanalysis, reverse-engineering, *botnets* analysis, vulnerabilities investigation, network analysis and smartcard analysis.

Delegation of computer science competitions

CSAW

<https://csaw.isis.poly.edu/>

The *CSAW (Cyber Security Awareness Week)* is an annual competition in international security level where hundreds of participants compete, for two days, in an online “hacking” race. The best participants from Canada and the United States have the chance to be admitted to the final round of the competition in New York City.

HackFest

<http://cusec.net/>

The HackFest is an yearly event regrouping information security professionals and hobbyists. A conference is held on-site, as well as various competitions, such as “*capture the flag*”.

Other security competitions

We also represent ÉTS in various other competitions in computer security. These competitions normally take place over the Internet, and aim to test the participants’ security talents.

DELEGATION’S PAST RESULTS

Over the past years, we have distinguished ourselves in various important competitions by getting very good results.

COMPETITION	2012	2013	2014	2015
CS GAMES	4/13	1/22	EVENT	1/22
1 ST TEAM	7/13	2/22	TOOK PLACE	7/28
2 ND TEAM	-	5/22	AT ÉTS ¹	
3 RD TEAM				
NORTHSEC		3/17	3/26	1/31
1 ST TEAM		4/17	9/26	15/31
2 ND TEAM	CANCELLED	8/17	14/26	17/31
3 RD TEAM				18/31
CSAW				
CANADIAN RANKING	1 ST	1 ST	1 ST	1 ST
NORTH AMERICAN RANKING	4 TH	3 RD	5 TH	2 ND
WORLDWIDE RANKING	32 ND	21 ST	11 TH	7 TH
ICTF*				
WORLDWIDE RANKING	5 TH	63 RD	14 TH	TBD
DEFCON QUALS*	-	-	40 TH	58 TH

¹ The 2014 CS Games being hosted at École de technologie supérieure, we were allowed to participate in the competitions but could not be part of the final scoreboard. The Delegation of Computer Science Competitions earned nine trophies, six of which were first places.

* On occasions, the Delegation of Computer Science Competitions teams up with the local Information Security group CISSP Groupies for various competitions.

INDUSTRY PARTNERSHIP

We are currently looking for partners that will help to make our ambitions a reality and allow our activities to take place. We offer different visibility levels to our partners, to help them gain visibility within ÉTS, Canadian and North American Universities, and in the various conferences we attend. Our partners will also get in contact with promising future candidates. Please note that it is possible to receive a tax receipt for your contribution.
